# HOW ARE PRODUCTS APPROVED FOR EPA'S LIST N?

EPA allows several types of claims to be used to combat COVID-19:

**EPA** United States Environmental Protection Agency

Search EPA.gov

Environmental Topics   Laws & Regulations   About EPA

Related Topics: **Coronavirus**   CONTACT US   SHARE  

## How does EPA know that the products on List N work on SARS-CoV-2?

EPA expects the products on List N to kill SARS-CoV-2 (COVID-19) because they:

- Demonstrate efficacy against SARS-CoV-2 (COVID-19);
- Demonstrate efficacy against a virus that is harder to kill than SARS-CoV-2 (COVID-19); or
- Demonstrate efficacy against another type of human coronavirus similar to SARS-CoV-2 (COVID-19).

**EPA expects all products on List N to be effective against SARS-CoV-2 when used according to label directions.**

Direct claim against SARS-CoV-2

A virus listed in the Emerging Viral Pathogen claim such as Norovirus, Adenovirus, Rotavirus, Canine Parvovirus, etc.

Human coronavirus claim

EPA's List N only lists one option per product, though all three options meet the criteria to be included on List N
